МІНІСТЕРСТВО ОСВІТИ І НАУКИ УКРАЇНИ

НАЦІОНАЛЬНИЙ УНІВЕРСИТЕТ

«ЛЬВІВСЬКА ПОЛІТЕХНІКА»

ЗВІТ

До лабораторної роботи №4

З курсу «Технології вебпрограмування»

Тема: «Робота із JavaScript»

Виконала: ст. Гр. КБ-207

Панчишин А. А.

Прийняла: Леськів Т. С.

Львів 2026

Мета: засвоїти базові концепції JavaScript та навчитися керувати потоком виконанням програми. Ознайомитися з основами взаємодії JavaScript з HTML.

        <h3>PROJECTS</h3>
        <h4>Python-Based Pizza Delivery Management System</h4>
        <ul>
          <li>Architected a complete CRUD application using Object-Oriented Programming (OOP) to manage the
full lifecycle of pizza orders.</li>
          <li>Developed a robust domain model with strict data validation using Pydantic, ensuring integrity for
pizza types, ingredients, and regional bakery specifications.</li>
          <li>Implemeted a file-based persistence layer using JSON, allowing the system to maintain and retrieve
order history across sessions.</li>
          <li>Designed an interactive command-line interface (CLI) with advanced input sanitization to prevent
application crashes from invalid user data.</li>
          <li>Produced comprehensive technical documentation, including 16 test cases to verify system stability
under positive, negative, andedge-case scenarios.</li>
        </ul>
        <h4>Team Captain – Productivity-Focused Website</h4>
        <ul>
          <li>Initiated and led a university team project to develop a website designed to help users concentrate
on work or study by restricting access to distracting applications.</li>
          <li>Organized workflow, delegated responsibilities, and maintained alignment with project goals.</li>
          <li>Contributed to project planning, feature definition, and overall coordination of development
efforts.</li>
        </ul>
        </section>
